

Copilot Studio Service Desk Agent

Internal support agent with guided self-service and workflow handoff

PROBLEM

Repeated employee support questions created manual effort, inconsistent responses, and delayed handoff to support owners.

APPROACH

Designed Copilot Studio topics, fallback paths, guided questions, Adaptive Card-style inputs, and Power Automate actions for request capture and escalation.

ARCHITECTURE

Teams/Web user -> Copilot Studio topic -> knowledge or prompt response -> Power Automate action -> Dataverse/SharePoint request record -> notification or handoff.

MY CONTRIBUTION

Requirements discovery, topic design, response templates, workflow handoff, test cases, runbook notes, and adoption guidance.

SKILLS

Copilot Studio, Power Automate, Dataverse, SharePoint, Adaptive Cards, JSON, Teams, L2/L3 support.
